ILERSAC L

AUTOMATIC BAGGING MACHINE FOR OPEN MOUTH BAGS

The Ilersac L has been designed by TMI as a modular machine for the handling of open mouth bags, both with or without side gussets. It can handle paper, PE or woven PP open mouth bags & maintain the form of the gussets.

Features

- Outputs up to 720 bags/hour depending on product' characteristics and formats to handle
- Multi stack bag magazine with automatic stack change
- Open mouth flat-top or side gusseted bags made of paper, PE or laminated PP
- Oval shaped filling spout with external clamp for total obturation
- Bags' top stretching and extraction set by robotic pincers
- Dust aspiration outlets to connect to the filter
- Aspiration piloted at the filling spout
- Double stack of empty bags, automatic change of trays
- Dosing system by means of gravity, belt conveyor or auger screw as per product properties and output requirements
- Gross weight or net weight configurations, depending on output requirements
- Simple and user friendly HMI

Options

- Side gusseted bags' handling system at the bags' magazine
- · High capacity empty bags' magazine
- Integrated bags' coding/labeling system
- Double filling spout for multi-format applications, automatic change
- Product settling function through bottom vibration, lateral kick, deaeration rod or mechanical deaeration depending on product properties and type of bag
- Integrated closing systems: heat sealing, stitching, pinch top
- Air extraction before sealing
- Inert gas injection before sealing
- Anti-corrosive versions to handle highly aggressive products
- ATEX versions for installation in Classified Areas
- Manufacturing in Stainless Steel

*This machine is designed by TMI

About Packweigh

Packweigh Equipment, design & manufacture as well as import equipment from all over the world, and with a modern workshop and engineering department, can furnish an innovative solution to supply you with equipment to suit your specific needs.

Packweigh Equipment also carries an extensive range of spare parts and has the expertise and staff to service your machinery for smooth trouble free operation.

Applications

- Agro-feed: Seeds, cereals, cattle feed, pet-foods, premixes
- Foodstuff: Flours, semolina, ingredients, milk powder, cacao powder, sugar
- Chemical & Petrochemical: Fertilizers, PVC, plastic granules
- Building & mining: Mortars, sepiolite, perlite, salt, glass
- Recycling: Biomass pellets, Shredded tyres.
