

# CONVEYORS

FOR BAGGING AND MANUAL PALLETISING

**PACKWEIGH**  
INNOVATIVE PACKAGING SOLUTIONS

## Packweigh Bagging Line Conveyors

Precision, Efficiency, and Versatility

Packweigh manufactures high-quality conveyors designed specifically for bagging lines, ensuring smooth operations for bag closing and manual palletising. Built for durability and efficiency, these conveyors are available in mild steel and food-grade stainless steel constructions, with approved food-grade belting

## Bag Closing Conveyors

Adjustable bag guides to maintain upright positioning  
Manual, handwheel, or press-button height adjustment for flexibility

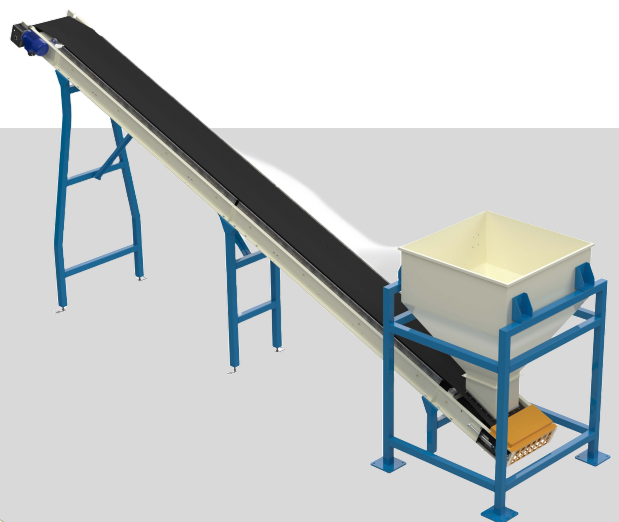

Reliable movement for seamless bag sealing

## Incline Conveyors

Available in various lengths to suit different setups  
Optional bag accumulation for improved workflow efficiency allowing one operator to manage weighing, closing, and palletizing

Designed for general bagging applications, Packweigh conveyors enhance productivity while ensuring precision and reliability in every step of the process.

We also manufacture trough conveyors to feed your product into the bagging scale
