

INNOBULK U

Bulk bag unloading Series

PACKWEIGH
INNOVATIVE PACKAGING SOLUTIONS

Features

Designed for optimized product movement, accurate dispensing, and seamless integration into a mixer or batching systems, the Innobulk U-01 and Innobulk U-02 models are engineered to enhance efficiency in bulk material handling.

Innobulk U-01: Precision with Plungers

- Integrated plungers to facilitate some product movement within the bag.
- Loss-in-weight feeding option for accurate dispensing in batching applications.

Innobulk U-02: Dynamic Massage Arm System

- Massage arms create movement by pressing the bag from two sides.
- Pneumatic lift assists in removing residual product for complete emptying.
- Clamp system enables secure bag retying.
- Available loss-in-weight system for precise dosing.

Both models are ideal for batching systems, ensuring smooth product flow and efficiency in material handling operations.
