

INNOSAC

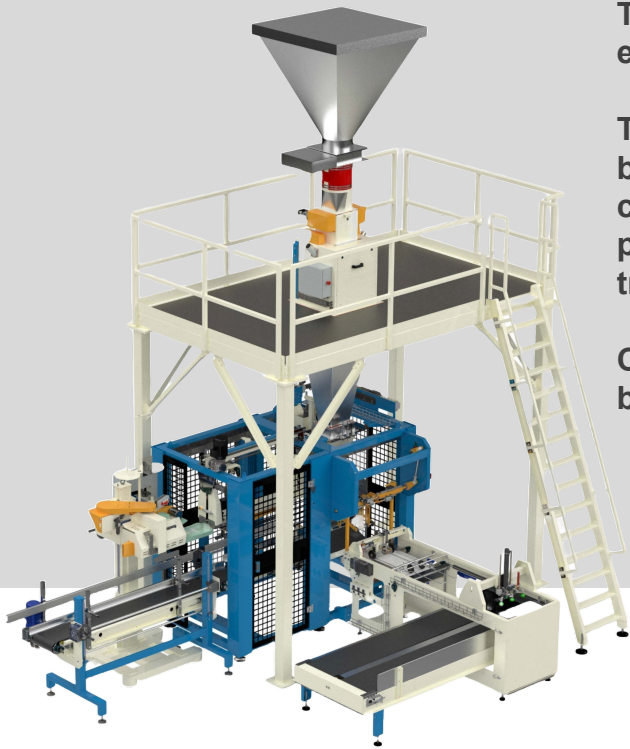

Automatic bagging machine - for open mouth bags

The Innosac Automatic Bagging Machine is designed for efficient and precise open-mouth bag handling.

This system features automatic bag loading from the bag magazine, ensuring a smooth transition to the bag clamp, where the product is pre-weighed and accurately placed into the bag. Once filled, the bag is seamlessly transferred to the closing system.

Capable of handling both gusseted and non-gusseted bags

PACKWEIGH
INNOVATIVE PACKAGING SOLUTIONS

Precision. Efficiency. Reliability.

Designed for open-mouth bags, the Innosac Series offers a cost-effective, high-performance bagging solution for a wide range of industries. **Manufactured in Australia.**
